

PUBLIC INTELLECTUALS PROGRAM

The National Committee on United States-China Relations' Public Intellectuals Program is designed to nurture a new generation of China specialists with the interest and potential to play significant roles as public intellectuals.

Through a varied set of activities PIP helps each cohort of twenty young American China scholars and other specialists go beyond their own disciplines to deepen and broaden their knowledge of China's politics, economics, and society, and encourages them to use this knowledge to inform policy and public opinion.

The two-year enrichment opportunity is intended to complement the fellows' primary academic or professional positions. It includes two meetings in Washington focusing on the D.C.-based China policy community; a West Coast meeting; trips to Greater China as a cohort; participation in National Committee programs as scholar-escorts, speakers, dialogue participants, etc.; access to media coaches who can assist fellows in writing and placing op-eds and expanding their social media presence; and a requirement that the fellows organize local public education programs.

The first three rounds of the program (2005-13) were funded with grants from The Henry Luce Foundation and The Starr Foundation. The fourth, fifth, sixth, and seventh rounds (2014-2023) have been funded by Carnegie Corporation of New York.

For more on PIP and the community that now numbers 140, please visit <http://www.ncuscr.org/pip>.

PIP VII FELLOWS: 2021-2023

Dr. Lina Benabdallah	Assistant Professor of Politics and International Affairs, Wake Forest University <i>International relations theory, Global South, political nostalgia</i>
Mr. Nicholas Borst	Vice President and Director of China Research, Seafarer Capital Partners <i>Financial reform, shadow banking, U.S.-China cross-border investment</i>
